Dear Montana Association of Community Disability Services:

I am pleased to recognize September 7-13, 2014 as "National Direct Support Professionals (DSPs) Week" in the State of Montana.

I commend the efforts of the Montana Association of Community Disability Services to properly recognize DSPs for their contributions to direct care. Montana is fortunate to have so many high quality direct support professionals practicing in our state. These individuals and organizations work tirelessly to provide care to Montana seniors and citizens with disabilities. I am happy to provide DSPs the recognition they deserve for continuing to make Montana the last best place.

I encourage all Montanans to recognize September 7-13, 2014 as "National Direct Support Professionals Week" and recognize the work that DSPs do in Montana's communities to ensure good health and well-being across the state.

Sincerely,
